DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 24-32 are rejected under 35 U.S.C. 102(b) as being anticipated by Jacobs et al (USPN 5,599,301). Jacobs discloses a method of inflating a balloon catheter that includes the steps of injecting fluid into the balloon catheter at a predetermined rate (see 5:44-46,6:14-15,7:28); receiving actual pressure data (see 10:3-6); comparing the actual pressure data to baseline pressure data representative of inflation characteristics of the balloon catheter in a controlled environment (see 9:64+); and adjusting the inflation rate in response to the difference between the actual pressure and the baseline pressure. (see 9:64+).

Regarding claim 25, see 14:54+.

Regarding claim 26, see 14:54+.

Regarding claim 27, see 7:48-58.

Regarding claim 28, see 7:1-10.

Regarding claim 29, see 7:1-10.

Regarding claim 30, see 7:1-10.

Regarding claim 31, see 10:30-38.

Regarding claim 32, see 14:54-56.

Response to Arguments

Applicant's arguments filed 6/5/06 have been fully considered but they are not persuasive.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., "comparing the actual pressure data to baseline pressure data representative of inflation characteristics of the actual balloon catheter) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). The term actual is not used in the claims in reference to the balloon catheter.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
